

Air Permitting 101

Are you new to the air permitting world? Would you like to gain an understanding of how the air permit application process works?

This one-day, interactive workshop, geared toward non-Title V (major) air permitted sources, will demystify the application process and help those new to air permitting understand the basics of air permitting.

What will you learn?

- How does the Clean Air Act regulate emissions?
- What is an air permit?
- What are the types of permits?
- How do you apply for a permit?
- How do you calculate potential to emit?
- What forms are required for a permit?

Who should attend?

- Facility managers
- Consultants
- Educational institutions
- Health and safety professionals
- Economic development professionals
- Non-Title V (major) air permitted sources
